Services

Scope of installation

Thank you for choosing Magnet to install your kitchen. This part of the contract is to clearly identify all works that will be undertaken as a part of the Magnet kitchen installation and should be read in association with the main body of the contract and the agreed plan. Any work not listed here does not form a part of any contract. This Scope and the works detailed **are subject to change following the Pre-Fit Technical Survey (PFS)**. However, please note that upon removal of the existing kitchen, other works may become apparent that could not be identified at the PFS and would therefore not form a part of this Scope.

All Magnet installed kitchens include an Installer PFS and are carried out in accordance with current regulations. The purpose of the PFS is to establish that existing services comply with current regulations and the design/room dimensions are accurate. Any amendments required to the list of works or plan/product identified at the time of the PFS that are additional to the Scope will be subject to a full contract review.

Magnet does not undertake any of the following works: Structural building works of any type; Installation or alterations to central heating systems; installation or alterations to TV, satellite, telephone or network points; installation or commissioning of second hand gas appliances.

Separate Agreement with Fitter.

Note: **Only** the works listed within this section can form part or all of an installation undertaken by Magnet. Any works discussed and quoted for outside the Scope of this Magnet installation will form a separate agreement between the Installer and customer. It must be understood that any such work **WILL NOT** therefore be covered by the Magnet 24 month workmanship guarantee and Magnet will accept **no responsibility** for work undertaken under such a separate **private** agreement.

For the avoidance of any doubt Magnet Ltd. or any of its employees has **not** recommended the services of the Magnet Approved Installer to carry out any other works than those listed within this Scope of Installation. Magnet Ltd. hereby strongly recommends that, where other works are required, outside of this Scope, you seek quotations from Contractors other than the Magnet Approved Installer and therefore make your own personal choice and selection based on this.

Third Party Work.

Where you are having works carried out by a third-party, it is your responsibility to ensure that any works are scheduled to enable safe access for your Magnet Installer upon the agreed dates. Further, it is accepted that unforeseen events do occur in such contracts where inconvenience is considered to be intrinsic, and therefore Magnet will not be liable for any consequential losses arising out of third-party works which are scheduled to run concurrent with or following the Installation. For the avoidance of doubt this also includes any works which are considered as snagging.

Snagging.

Any post installation works, or snagging, will be notified on the completion document. Snagging is considered to be part of the Contract and we will undertake to arrange this work as part of our Installation Service.

General.

You understand that you need to provide space locally for preparation work to be undertaken, provide access to suitable power and toilet/washroom facilities and although we will endeavour to keep disruption to a minimum you understand that this cannot be avoided.
